

About us

關於我們

With Fine Packaging Comes Assurance

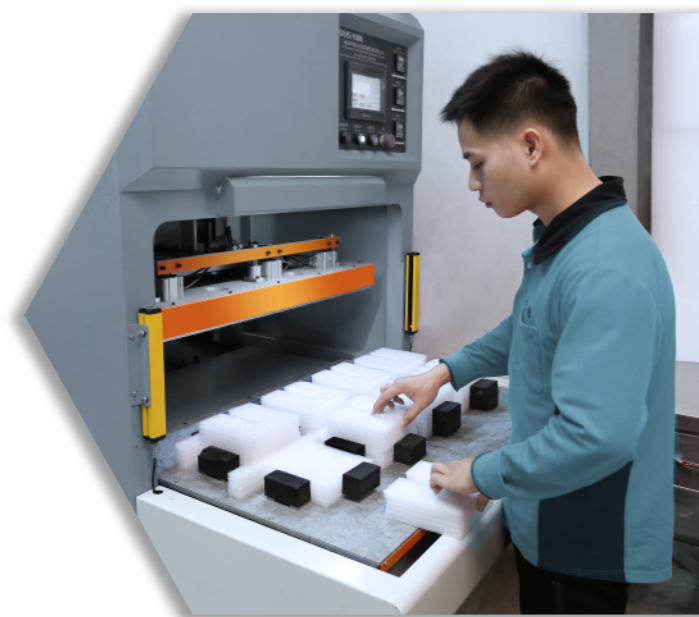

面面俱到的包覆 時時刻刻的安心

Yun-Lun Packaging Materials Co. Ltd. specializes in the R&D and manufacture of cushioning foam materials. Since its establishment in 1995, Yun-Lun has sought to "lead innovation in EPE application technology and create a sustainable culture for the packaging material industry". To address the introduction of new recyclable and environmentally friendly materials, Yun-Lun continuously engages in the R&D of diverse cushioning and packaging material applications, safeguarding our clients' products while giving consumers the opportunity to partake in green operations.

Cushioning and packaging materials should be light, low-temperature resistant, insulating, sound-absorbing, moisture resistant, shock-absorbing, etc., as well ideal for protective cladding, thereby ensuring sound delivery and that the products remain in normal working conditions. A whole variety of materials are used as cushioning and packaging materials, including EPE, EVA, IXPE, XPE, PS, PP, etc. Yun-Lun can also engage in the development of new materials according to our clients' needs.

允綸包裝材料股份有限公司是專業於緩衝發泡材料多元應用的研發製造商，自1995年成立以來，即秉持「領導EPE應用技術革新，創造包材永續新文化」的願景，因應可回收環保材料的推陳出新，持續研發緩衝包材的多元應用，妥善保護客戶商品，讓人們的每一次消費都能輕鬆落實綠色行動。

緩衝包材具備質輕、耐寒、保溫、吸音、防潮、吸震等特色，適合用於包覆穩固產品運送或確保產品功能正常發揮，材質多元包含EPE、EVA、IXPE、XPE、PS、PP等，允綸亦可依據客戶需求配合開發新興材質。
